PROFESSIONAL SUMMARY

Full-Stack / Backend Web Developer with a B.Sc. in Computer Science, building secure, database-driven web applications in PHP and Laravel backed by MySQL. Confident implementing RESTful APIs, authentication and authorization, and relational database design, with a working front-end layer in JavaScript and Bootstrap. Complements this with UI/UX design experience that strengthens end-to-end product understanding.

TECHNICAL SKILLS

Backend: PHP, Laravel, RESTful APIs, Authentication & Authorization, MySQL, MongoDB, PDO (prepared statements)
Frontend: JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, AJAX
Integrations: Paystack API (online payments), SMTP email (OTP and password-reset flows)
Cloud & Tools: AWS (EC2, S3, RDS), Docker, Git/GitHub (forking, pull requests, code review), VS Code, XAMPP
Currently Expanding Into: Node.js, automated testing, CI/CD basics

KEY PROJECTS

Campus Find — PHP · MySQL · AJAX · jQuery · Bootstrap
A lost-and-found web application giving students and administrators a secure, searchable way to report and reclaim items.

- Built a full-stack platform for 50+ students and administrators, using PHP PDO prepared statements across 6 relational tables to avoid raw SQL queries and reduce injection risk.
- Implemented session-based role authentication and password hashing for secure multi-role access.
- Added a real-time AJAX/jQuery email-availability check at signup and delivered a fully responsive Bootstrap interface with CRUD and search functionality.

Fazobeth Ventures — PHP · PDO/MySQL · JavaScript · jQuery · AJAX · Bootstrap · Paystack API · SMTP
A full-stack e-commerce store for mothers and babies, where customers browse products, manage a cart and pay online.

- Built the complete shopping flow — product catalogue, product detail pages, AJAX-driven cart, checkout, order confirmation and customer order history — on a responsive Bootstrap interface.
- Integrated the Paystack API for secure online payments, tying each payment to an order record in MySQL via PDO prepared statements.
- Implemented customer authentication with signup, login, OTP verification and SMTP email-based password reset, plus an admin area with image uploads for managing products.

EXPERIENCE

Software Development Bootcamp Trainee | Moat Academy
Apr 2026 – Jul 2026

- Completed an intensive full-stack curriculum covering PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, and Git, delivering 2 hands-on projects to sprint deadlines.
- Earned a Software Development Certificate by completing every required project milestone and assessment.

UI Designer (supporting cross-functional development) | HOPn — Germany (Remote)
Feb 2026 – Jul 2026

- Mapped the applicant journey for a SaaS recruitment platform's HR-AI CV workflow into a fully navigable Figma prototype, clarifying data and screening logic ahead of development handoff.
- Balanced this design work alongside a concurrent full-stack development bootcamp, meeting both design and programme deadlines on schedule.

UI & Graphics Designer (NYSC Primary Assignment) | Powersoft Integrated Solutions Ltd — Ikeja, Lagos
Jan 2025 – Dec 2025

- Designed a streamlined multi-payment approval flow and translated static designs into animated, interactive Figma prototypes ahead of development handoff.
- Maintained consistent design delivery across concurrent workstreams while communicating progress to project managers and stakeholders.

EDUCATION

B.Sc. Computer Science — Redeemer's University (2020 – 2024)

CERTIFICATIONS

National Youth Service Corps (NYSC) Certificate of National Service (2025)
Software Development Certificate — Moat Academy (2026)
